Dividends

In accordance with the Company's constitution no dividend or distributions have been either paid to members, or recommended or declared for payment to members during the financial year.

Principal activities

The principal activities of the Group in the course of the financial year were the promotion, development and control of the game of association football in Australia.

For the year ended 30 June 2017

Operating and financial review

The net deficit after tax of the Group for year ended 30 June 2017 was \$335,000 (2016 net deficit: \$387,000).

The Company has completed another significant year which is illustrated by the following key achievements and milestones:

- A new six year broadcasting agreement was announced in December with FOXSPORTS, Foxtel and News Corporation as partners. Subsequently a two year agreement for broadcast of a live Hyundai A-League match each Saturday night during the season was reached with Network Ten, an international rights agreement was reached with IMG and radio broadcast rights were awarded to Croc Media.
- Significant time has been devoted to evolving the governance and operating model for the sport
 with FFA working with its Member Federations, professional clubs, Professional Footballers
 Australia, FIFA and the AFC on finding an acceptable way to expand our representative
 Congress. FFA has also worked with Deloitte on potential new operating models for the
 Hyundai A-League and Westfield W-League with the aim of increasing capital investment in the
 game. This work is ongoing.
- Meanwhile the re-branding of the leagues has been completed and significant progress has been made on creating new digital platforms, the first of which go live in October 2017.
- In its 12th season, the domestic showpiece of the game, the Hyundai A-League, enjoyed a highly competitive season culminating in another sold-out Grand Final. Sydney FC secured the double, finishing premiers at the end of the regular season and defeating Melbourne Victory at Allianz Stadium in Sydney. The Westfield W-League Grand Final, a highly competitive match in Perth to end the league's 9th season, saw Melbourne City win its second successive title.
- The Socceroos continued their quest to achieve qualification for the FIFA World Cup 2018 in Russia. Matches in the qualification process were held across Australia with the support of state governments driving international and interstate tourism. Meanwhile the Matildas continued to impress with performances which have kept them firmly among the top ranked nations in the world.
- Football's community base continued to grow, with the publication of a new survey undertaken by the Australian Sports Commission, showing football to be the biggest club-based participation sport in Australia by a wide margin. The AusPlay survey is the largest of its type ever undertaken in this country and shows football clubs to have more than 1.1 million participants. Girls participation is the fastest growing area of our sport at a grassroots level.
- Significant progress was made in the national player pathway with all Hyundai A-League clubs fielding their national youth league teams in their respective NPL competitions.
- Connecting the elite and community levels of the game in a way only football can, the FFA Cup
 enjoyed another highly successful season with Melbourne City FC winning the final and its first
 silverware at Melbourne's AAMI Park.

Notes to the consolidated financial statements

For the year ended 30 June 2017

1. Corporate Information

The financial report of Football Federation Australia Limited (the "Company") and its consolidated entities (the "Group") for the year ended 30 June 2017 was authorised for issue in accordance with a resolution of the directors on 20 October 2017.

Football Federation Australia Limited (the "Parent") is a company limited by guarantee incorporated and domiciled in Australia. Every member of the Company undertakes, in accordance with the Constitution of the Company, to contribute such amount (not exceeding \$20) as may be required in the event of winding up of the Company during the time that they are a member or within one year afterwards. At 30 June 2017 the number of members was 10, being the nine State and Territory Federations and one Hyundai A-League Club member (2016: 10).

The registered office of the Company and the principal place of business is: Level 22, 1 Oxford Street, Darlinghurst, NSW 2010.

The nature of the operations and principal activities of the Group are described in the directors' report.

2. Summary of significant accounting policies

2.1 Basis of preparation

The financial report is a general purpose financial report, which has been prepared in accordance with the requirements of the *Corporations Act 2001*, Australian Accounting Standards – Reduced Disclosure Requirements and other authoritative pronouncements of the Australian Accounting Standards Board. The financial report has also been prepared on a historical cost basis.

The financial report is presented in Australian dollars and all values are rounded to the nearest thousand dollars (\$000).

2.2 Statement of compliance

The financial statements of the Company comply with Australian Accounting Standards - Reduced Disclosure Requirements as issued by the Australian Accounting Standards Board (AASB).

2.3 Changes in accounting policies and disclosures

The accounting policies adopted are consistent with those of the previous financial year.

The new and amended Australian Accounting Standards and AASB Interpretations that apply for the first time in 2016/2017 do not impact the financial statements of the Company.

For the year ended 30 June 2017

2.4 Basis of consolidation

For the year ended 30 June 2017, the consolidated financial statements incorporate the financial statements of the Company and the entities controlled by the Company, including:

- ACN 146 403803 Pty Limited (Gold Coast United)
- Canberra United FC Pty Limited
- North Queensland Fury Football Club Pty Limited
- Local Organising Committee AFC Asian Cup 2015 Limited (LOC)

The Group controls an investee if and only if the Group has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee.
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption, and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement(s) with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill),

For the year ended 30 June 2017

liabilities, non-controlling interest and other components of equity while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

a) Business combinations

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at acquisition date fair value, and the amount of any non-controlling interest in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interest in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of AASB 139 Financial Instruments: Recognition and Measurement, is measured at fair value with the changes in fair value recognised in the consolidated statement of profit or loss and other comprehensive income.

b) Cash

Cash in the consolidated statement of financial position comprises cash at bank and in hand.

For the purposes of the consolidated statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above.

c) Trade and other receivables

Trade receivables, which generally have 30-60 day terms, are recognised initially at fair value less an allowance for impairment.

Collectability of trade receivables is reviewed on an ongoing basis. Individual debts that are known to be uncollectible are written off when identified. An impairment provision is recognised when there is objective evidence that the Group will not be able to collect the receivable.

d) Inventories

Inventories are valued at the lower of cost and net realisable value.

For the year ended 30 June 2017

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

e) Investments and other financial assets

Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are measured at cost.

f) Property, plant and equipment

Plant and equipment is stated at cost, net of accumulated depreciation and/or accumulated impairment losses, if any. Such cost includes the cost of replacing part of the plant and equipment. When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the income statement as incurred.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets, as follows:

| • | Furniture, fittings and office equipment | 20% - 33% |
|---|--|-----------|
| • | Leasehold property | 2% |
| • | Motor vehicles | 20% |

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of profit or loss and other comprehensive income when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

For the year ended 30 June 2017

g) Discontinued operations

The Group classifies non-current assets and disposal groups as held for sale or for distribution to equity holders of the parent if their carrying amounts will be recovered principally through sale or a distribution rather than through continuing use. Such non-current assets and disposal groups classified as held for sale or for distribution are measured at the lower of their carrying amount and fair value less costs to sell or to distribute, excluding the finance costs and income tax expense.

The criteria for held for sale or for distribution classification is regarded as met only when the sale or distribution is highly probable and the assets or disposal group is available for immediate sale or distribution in its present condition. Actions required to complete the sale or distribution should indicate that it is unlikely that significant changes to the sale or distribution will be made or that the decision to sell or distribute will be withdrawn. Management must be committed to the sale or distribution expected within one year from the date of the classification.

Property, plant and equipment and intangible assets are not depreciated or amortised once classified as held for sale or distribution.

Assets and liabilities classified as held for sale or distribution are presented separately as current items in the statement of the financial position.

Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the consolidated statement of profit or loss and other comprehensive income.

h) Leases

To determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Group is classified as a finance lease.

An operating lease is a lease other than a finance lease. Operating lease payments are recognised as an operating expense in the consolidated statement of profit or loss and other comprehensive income on a straight-line basis over the lease term.

For the year ended 30 June 2017

i) Impairment of assets

Impairment of financial assets

Financial assets, other than those at fair value through surplus or deficit, are assessed for indicators of impairment at each reporting date. Financial assets are impaired where there is objective evidence that as a result of one or more events that occurred after the initial recognition of the financial assets the estimated future cash flows of the investment have been impacted. For financial assets carried at amortised cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment deficit directly for all financial assets with the exception of trade receivables where the carrying amount is reduced through the use of an allowance account. When a trade receivable is uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in the surplus or deficit.

With the exception of available-for-sale equity instruments, if, in a subsequent period, the amount of the impairment deficit decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment deficit is recognised through surplus or deficit to the extent the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised. In respect of available-for-sale equity instruments, any subsequent increases in fair value after an impairment deficit is recognised directly in equity.

Impairment of other tangible and intangible assets

At each reporting date, the Group reviews the carrying amount of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment deficit. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment deficit (if any). Where the asset does not generate cash flows that are independent from other assets, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment deficit is recognised in surplus and deficit immediately.

Where an impairment deficit subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of the recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment deficit been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment deficit is recognised in surplus and deficit immediately.

For the year ended 30 June 2017

j) Intangible assets

Trademarks

Trademarks are recorded at cost less accumulated amortisation and impairment. Amortisation is charged on a straight-line basis over the estimated useful life of 10 years. The estimated useful life and amortisation method is reviewed at the end of each annual reporting period.

Online systems capital costs

Capitalised information technology costs are recorded at cost less accumulated amortisation and impairment. Amortisation is charged on a straight-line basis over the estimated useful life of 3 years.

Digital assets

Capitalised digital assets are recorded at cost. The assets will be amortised on a straight-line basis over the estimated useful life of 4 years at the point in time that the asset becomes available for use.

k) Trade and other payables

Trade and other payables are carried at amortised cost and due to their short-term nature they are not discounted. They represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured and are usually paid within 30 days of recognition.

Employee benefit liability

General

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the consolidated statement of profit or loss and other comprehensive income net of any reimbursement.

Wages and salaries

Liabilities for wages and salaries, including non-monetary benefits are expected to be settled within 12 months of the reporting date are recognised in respect of employees' services up to the reporting date. They are measured at the amounts expected to be paid when the liabilities are settled. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currencies that match, as closely as possible, to estimated future cash flows, if material.

For the year ended 30 June 2017

Long service leave and annual leave

The Group does not expect its long service leave or annual leave benefits to be settled wholly within 12 months of each reporting date. The Group recognises a liability for long service leave and annual leave which are recognised and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to anticipated future wage and salary levels, experience of employee departures, and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currencies that match, as closely as possible, the estimated future cash outflows.

m) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of whether the payment is received. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty. The specific recognition criteria described below must also be met before revenue is recognised.

Grants

Revenue from grants is recognised in the Statement of profit and loss when it is controlled. When there are conditions attached to the grant revenue relating to the use of those grants for specific purposes, it is recognised in the Statement of financial position as unearned revenue until such conditions are met or services provided.

Sponsorship

Revenue from sponsorship contracts is recognised on an accruals basis over the period in which the benefits are earned under the contract. Sponsorship income received in advance is considered unearned revenue and recognised as a liability.

Registration, license, affiliation and other fees

Revenue from registration, license, affiliation and other fees is recognised on an accruals basis.

National registration fees

National registration fees are received for the ensuing calendar year. Fees received in advance are considered unearned revenue and recognised as a liability.

Broadcasting and other rights

Revenue from broadcasting and other rights is recognised on an accruals basis over the period in which the benefits are earned under the contract.

Gate receipts

Revenue from gate receipts is recognised on an accruals basis in the period in which the games which produce the gate receipts occur.

For the year ended 30 June 2017

Hosting of events

Revenue from governments for the hosting of events is recognised on an accruals basis in the period in which the events occur.

Merchandising and other income

Merchandising and other income are recognised on an accruals basis.

Finance income

Finance income is recognised on a time proportionate basis that takes into account the effective yield on the financial asset.

n) Taxes

No provision has been made for income tax as the Company is exempt in accordance with the terms of s50-45 of the Income Tax Assessment Act 1997. The Company's active taxable subsidiaries, North Queensland Fury Football Club Pty Limited, Canberra United FC Pty Limited and ACN 146 403 803 Pty Limited, are subject to income tax, however, no tax liabilities have arisen during the year.

Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except:

- When the GST incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable; and
- When receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the consolidated statement of financial position. Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

Cash flows are included in the consolidated statement of cash flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority is classified as part of operating cash flows.

3. Significant accounting judgements, estimates and assumptions

The preparation of the Group's consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

For the year ended 30 June 2017

Estimates and assumptions

Management have made assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that could have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Independent Auditor's Report to the Members of Football Federation Australia Limited

Opinion

We have audited the financial report of Football Federation Australia Limited (the Company) and its subsidiaries (collectively the Group), which comprises the consolidated statement of financial position as at 30 June 2017, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the consolidated financial position of the Group as at 30 June 2017 and of its consolidated financial performance for the year ended on that date; and
- b) complying with Australian Accounting Standards Reduced Disclosure Requirements and the Corporations Regulations 2001.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Report and Auditor's Report Thereon

The directors are responsible for the other information. The other information is the directors' report accompanying the financial report.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards - Reduced Disclosure Requirements and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of
 accounting and, based on the audit evidence obtained, whether a material uncertainty exists
 related to events or conditions that may cast significant doubt on the Group's ability to
 continue as a going concern. If we conclude that a material uncertainty exists, we are required
 to draw attention in our auditor's report to the related disclosures in the financial report or, if
 such disclosures are inadequate, to modify our opinion. Our conclusions are based on the

audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
